KYRC MARK®

KYRC MARK®

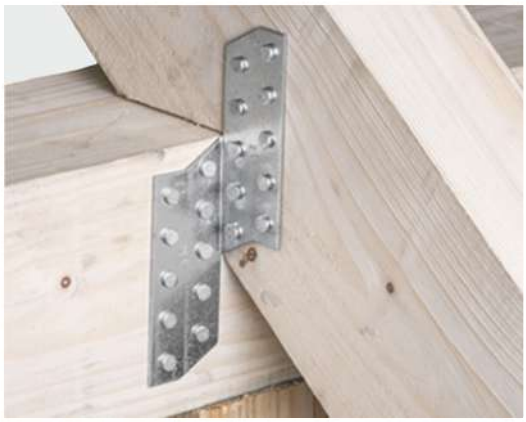

MARK KYRC sp. z o.o. has been operating continuously on the Polish market since 1986. The company's headquarters are located in the picturesque Wieliczka Foothills, near the town of Świątniki Górne, which is renowned for its metalworking tradition passed down from generation to generation.
Today, the region is highly urbanised and has developed a strong metalworking industry, owing to the former existence of a cooperative and a locksmith's school, which opened in 1887.

Initially, our company's business activities centred on the manufacture of window and door fittings. Our strong foundations – built on family traditions and 40 years' experience in the industry – have enabled us to gain a thorough understanding of the market for metal fasteners for timber. The company is now managed by the second generation of owners, who have focused strongly on its development, including ensuring the introduction of products that meet current trends and consumer expectations.

Mark Kyrc's production – 70%
External procurement – 30%

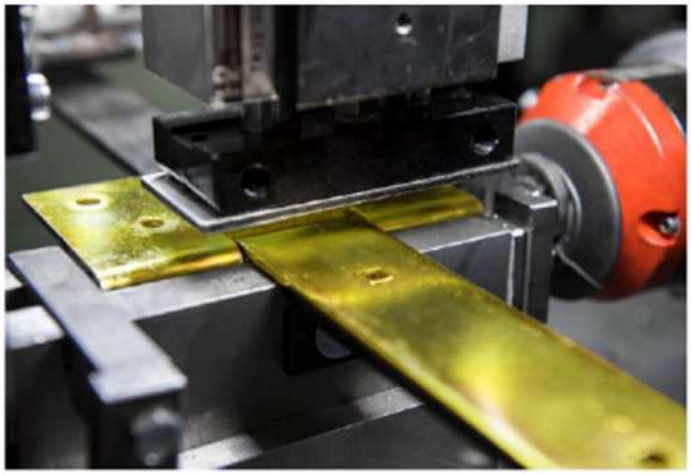

B2B NETWORKING

Regular participation in trade fairs and industry events, as well as networking.

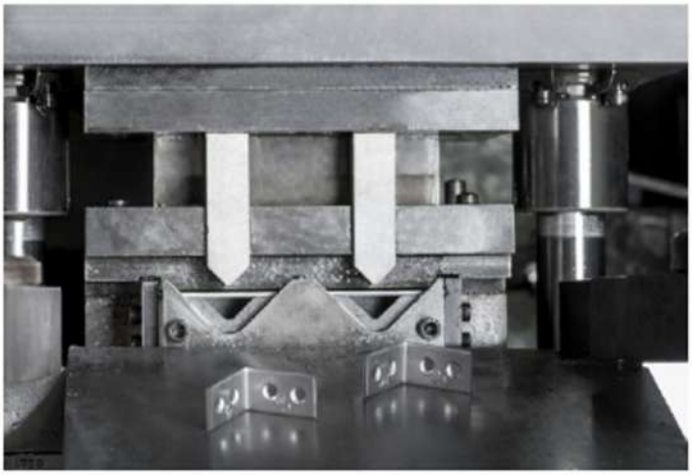

We are constantly investing in development, introducing new machinery and state-of-the-art equipment for steel forming to ensure the highest quality of our products. We mark every product with the MK MARK KYRC logo – marking our products with the owner's name is our promise and commitment to delivering products manufactured with passion and precision, for many years in the heart of the Wieliczka Foothills.

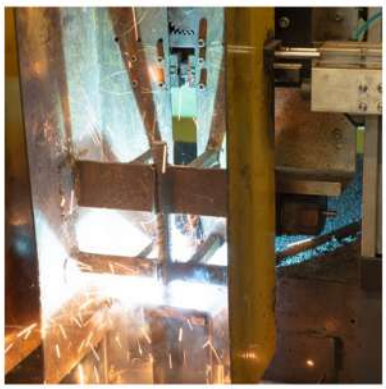

Products requiring strength calculations on the Polish and European markets hold European technical approvals and are marked with the CE1488 certification body logo on each item.

• Automated production lines • Progressive dies • In-house welding shop • Powder coating facility

The entire range is labelled with EAN barcodes using specially designed machines, which guarantees full product traceability.

In addition, the collective labels contain all the required information regarding the properties of the products, ensuring compliance with applicable market standards.

EXPORTS AND PARTNERSHIPS

Our products are exported to the following markets:

Slovakia, Czech Republic, Romania, Moldova, Ukraine, Lithuania, Germany, Bulgaria, Slovenia, Kosovo, Croatia, Serbia

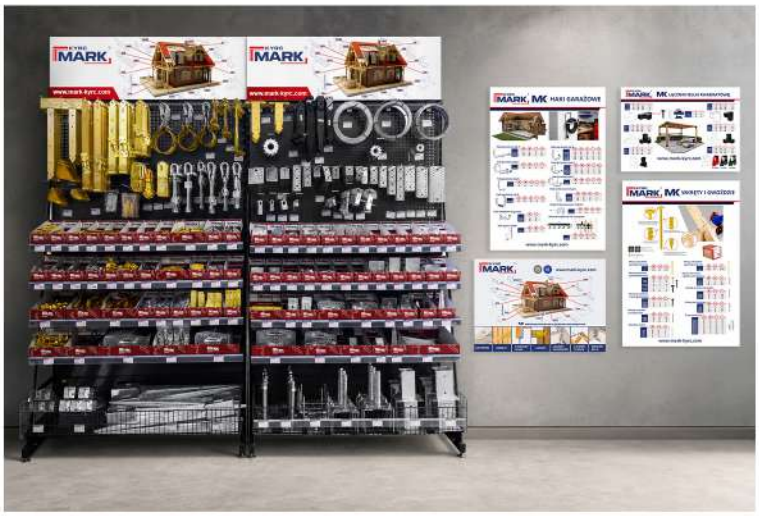

We maintain a constant stock of 200 tonnes of finished products, supported by an additional buffer of raw materials, semi-finished products and other materials, which enables us to ensure uninterrupted availability of goods. At the peak of the season, we dispatch over 120 tonnes of products per month, using both our own transport and freight forwarding services – in pallets, half-pallets and parcels.

We supply DIY chains both directly and through distributors. We also work with wholesalers, high-street shops, e-commerce platforms and building supply centres, both in Poland and abroad.

Our long-standing cooperation with our partners is a testament to our company's stability and our commitment to building lasting business relationships.

"Strong connections, lasting relationships" **– that is our motto in business dealings.**

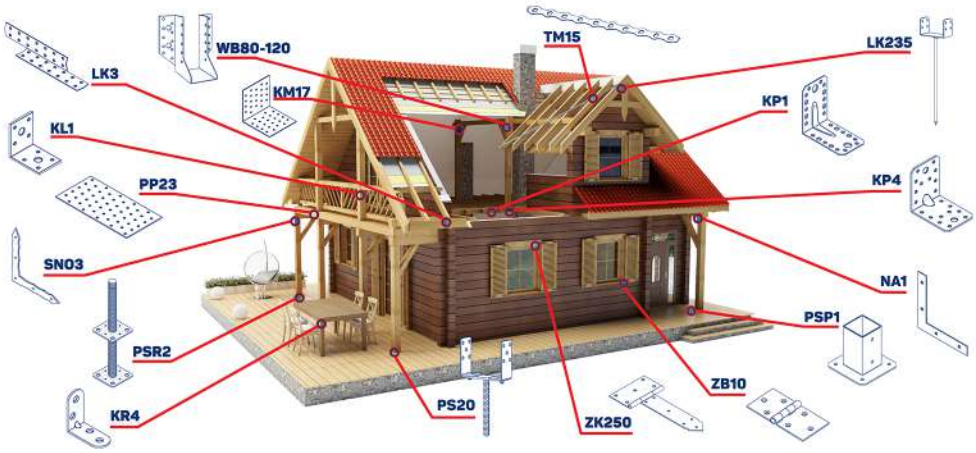

SALES AND MARKETING SUPPORT

Thanks to our many years of experience in distribution, we offer our partners comprehensive support:

- product catalogues
- in-store displays
- POS materials
- instructional videos
- social media
- professional product photography
- marketing support

We support our partners at every stage of the sales process by providing modern marketing materials and solutions that enhance the appeal of product displays. Through comprehensive promotional activities, we help to build brand recognition and effectively support sales growth.
